SUMMARY

Full-stack Software Engineer with experience in React, Java, Spring Boot, and MongoDB. Skilled in developing and maintaining web applications, integrating RESTful APIs, and implementing new features. Proficient in Excel and Power BI for data visualization. Strong problem-solving, collaboration, and communication skills. Maintained 94% and above throughout education, demonstrating consistent academic excellence.

PROFESSIONAL EXPERIENCE

Avanseus Technologies, Bangalore, India
Software Engineer | Sep 2024 – Present

- Analysed requirements and developed full-stack solutions using React and Spring Boot for the CAN (Cognitive Assistant for Networks) website
- Built end-to-end features by creating React components and Spring Boot APIs to meet comprehensive business requirements
- Collaborated with cross-functional teams to gather requirements, deliver scalable web applications, and ensure alignment between frontend and backend systems
- Enhanced system performance by optimizing code, debugging issues, and ensuring seamless user experience.

Intern | Feb 2024 – Aug 2024

- Trained in JavaScript, React, Spring Boot (Java), and MongoDB.
- Designed and developed an Employee Access Portal where employees could apply for leave, and managers could view requests in a date-wise tabular display.
- Built REST APIs for CRUD operations and integrated them with React UI.
- Improved data management efficiency by designing a structured MongoDB schema for leave requests.

SKILLS

- Languages/Frameworks: Java, Python, C, React, Spring Boot, JavaScript, HTML, CSS, MySQL, MongoDB, WordPress
- Tools/Concepts: Database Management, Cloud Computing, Machine Learning, Git, Web Development, Excel, Power BI, Tableau, Linux/Ubuntu, GitHub, Docker, IntelliJ IDEA, Postman, Studio 3T(MongoChef)
- Soft Skills: Leadership, Team Collaboration, Time Management, Communication

PROJECTS

Pet Services Website | Freelance Web Developer | Jan 2024 – Feb 2024

- Developed a pet boarding service website using WordPress with online booking functionality and seamless user experience.

Machine Learning Model Development | Tequed Labs Internship Project | Aug 2022 – Sep 2022

- Developed ML models for Iris dataset classification using KNN, Decision Tree, and Logistic Regression.
- Achieved 98% accuracy with KNN (k=3), 93% precision with Decision Tree, and 92% recall with Logistic Regression.

EDUCATION

JSS Academy of Technical Education, Bangalore
Bachelor of Engineering in Computer Science and Engineering | 2019 – 2023 | CGPA: 9.15

CERTIFICATIONS

- Java Programming: Solving Problems with Software – Duke University (Coursera)
- Python Basics for Data Science – IBM (edX)
- Introduction to Cloud Computing – IBM (edX)
- Artificial Intelligence & Machine Learning – Tequed Labs
